Hair & Scalp

Scalp & Hair Shaft Treatments

Skin Deep's Signature Exfoliating Scalp Treatment

A must for everyone to ensure healthy hair growth. Treatment begins with a mild exfoliating cleanser to slough away flakes and dead skin cells. Pure seaweed is then applied to detoxify, hydrate and replenish the scalp and the hair shaft, followed by creamy, thorough hair conditioning. This treatment will add shine, improve elasticity and make the hair fuller and more manageable. Blow dry not included.

(30 minutes, \$40)

Fortifying Essential Oil Scalp Massage

Essential oils are applied and massaged into the scalp. This treatment is great for the development of a healthy scalp. It also stimulates hair growth. Chemotherapy patients can benefit from this treatment because it soothes a sensitive scalp.

(30 minutes, \$20)

Rejuvenating Oil Treatment for Hair and Scalp

Dull, dry hair is transformed by the application of rich, nourishing oil. Deeply hydrating.

(30 minutes, \$30)

Add this treatment to your color process for an additional \$15.

Hydrating Hair Cream Treatment

This treatment is used for ultra-dry, chemically damaged hair. A 20 minute cream conditioning mask is applied, adding shine and manageability to the hair. The treatment is custom blended for your specific needs depending on your hair's condition and texture.

(30 minutes, \$20)

Add essential oil fluid to optimize moisture and enhance your hair's sheen for an additional \$10.

Dandruff and Deep Scalp Exfoliating Treatment

Soothing cream is applied to the scalp to make flakes less noticeable. This treatment is great for itchiness, psoriasis, or eczema. Your scalp will love you!

(30 minutes, \$20)

Thinning Hair Consultation

One of the causes of thinning hair is seborrhea, a condition which inhibits healthy function of the scalp and also prevents growth of new hair. Our hair technicians offer a thorough scalp examination, evaluation and treatment recommendation.

(Consultation, NC)

Hair Coloring

Our hair color care system was founded in 1945 in Milan, Italy, the fashion capital of the world. The system uses a vegetable cream based product for maximum conditioning with every application. Its superior gray coverage creates a rich natural look with less fading.

Our highlights and lowlights system is unsurpassed by any other. A rejuvenating oil treatment can be added directly into the color, which helps to hydrate the hair and improve its elasticity. You will leave Skin Deep with hair that is silky, shiny and positively vibrant.

Rejuvenating Oil Treatment added to color application (\$15)

Single Process or Semi-Permanent Color (\$52 - 65)*

Partial Highlights (\$75 - 95)*

Full Highlights or Lowlights (\$95 - 150)*

Corrective Color (Price upon consultation)*

*Prices depend on hair length and texture
